EMC filter with integrated surge protection

EnerProFilter for DIN rail mounting

EMC filters with integrated overvoltage protection enable smooth operation of highly sensitive electronics in harsh environments. Suitable for the application in single-phase TN systems. The protective circuit with filter contains an optimal decoupling between its medium protection (varistors) and its fine protection (varistors). All leakage current-afflicted elements are galvanically isolated from earth by a gas-filled surge arrester (GDT).

- Test standard: IEC 61643-11 / EN 61643-11
- Applicable at the boundaries LPZ 0B - 2 and higher
- EAC certification
- Remote signalling contact: break contact

Technical Data

EPF 230V/16A-Tr2-FM

IEC category	Type 2 + 3 / class II + III
Nominal voltage AC	UN 230 V~
Max. continuous operating voltage AC (50/60 Hz)	Uc
Protection level at 5 kA (8/20 µs)	Up $\leq 1,4 \text{ kV}$
Protection level at In (8/20 µs)	Up $\leq 2 \text{ kV}$
Response time L-N/L,N-PE	$\leq 25 \text{ ns}$
Nominal impulse discharge current (10 x 8/20 µs)	In 15 kA
Max. impulse discharge current (1x 8/20 µs)	I _{max} 25 kA
Max. allowed fuse or back-up fuse	16 A gG
Operating temperature range	TU -40 - +80 °C
Max. conductor cross section	50 mm ² stranded/35 mm ² flexible
Recommended conductor cross section	25 mm ²
Max. connection torque for terminals	4,0 Nm
Enclosure material / colour	polycarbonate (halogen-free) UL 94-V0 / yellow
Degree of protection (IEC EN 60529)	IP 20
Mounting on	35 mm DIN rail (EN 60715)
Installation dimensions (H × W × D)	105 x 90 x 64 mm
Switching capacity FM	250 V/2 A
Max. conductor cross section FM	1,5 mm ²
Power supply system	1 phase TN systems
