Pluggable SPD for MCR applications

Plug-in module for consistently pluggable, two-part arrester for signal circuits, which means that plugs can be pulled out in an impedance-neutral manner for testing and maintenance purposes. The base part (see accessories) remains in the installation, so there is no need to intervene in the cabling.

- Protection of one double or two single lines.
- Protective plug can be removed without changing the line impedance or influencing the useful signal
- Test standard: IEC 61643-21 / EN 61643-21
- Vibration test standard: DIN EN 60068-2-6, IEC 60068-2-6
- Shock test standard: DIN EN 60068-2-27, IEC 60068-2-27
- Applicable at the boundaries LPZ 0A - 1 and higher.
- Mounting on 35 mm DIN rail (EN 60715)
- Enclosure material: thermoplastic
- Housing width: 17.5 mm
- Protection of one double or two single lines.
